

The 2015-2016 Father Deane Excel and Beyond Program

Full Year Report – Sep 2015 to Apr 2016

Co-organizers

- St. Louis School
- SLOBA
- Father Deane Foundation Fund

Assessment of 2013/14 and 2014/15

- Experiences in the past two years revealed that S4 & S5 students are already heavily engaged in a wide range of extracurricular activities as well as student activities in the school.
- At the same time, they are facing ever mounting learning and studying pressures from the forthcoming public examination in S6. Their commitment to and attendance at the FEDB programs are thereby undermined.
- As a result, the FDAA Committee has decided to redesign the 2015-16 FDEB Programs to focus on S1 students instead.

Features of 2015/16 Program

In 2015/16, we focused on S1 students with a view to offering an in-time formation program to new members of the school. The key features of the new program include:

1. Students are to learn about the Salesian history and past deeds of early Salesian missionaries through heritage excursion to Macau.
2. Students are to widen their experience, elevate their vision and build up their confidence to embrace secondary school education through participation in external visits and activities.
3. Alumni are recruited as mentors to accompany and guide the students in the events and activities of the program.

The 2015-16 FDEB Program (Sep 2015 to Apr 2016)
